

# Roman Catholic Foundation of EASTERN MISSOURI

## Quarterly Investment Report

### Our Mission

*Inspiring giving and connecting donors to Catholic ministries,  
sustaining the local Church for generations.*

### Our Investment Philosophy

The Roman Catholic Foundation of Eastern Missouri offers world-class, Catholic-screened investment options to help donors achieve their charitable goals and to help Parishes, Schools, and Ministries of the Archdiocese of St. Louis meet their long-term financial needs.

We believe in responsible stewardship and seek a competitive financial return in a manner consistent with social teachings of the Catholic Church.

We invest in a well-diversified mix of risk-appropriate assets to achieve a rate of return that will support the Foundation's distribution rate schedule while protecting assets from inflation and market volatility. All investments are screened in accordance with the Socially Responsible Investment Guidelines set forth by the United States Conference of Catholic Bishops.

## Market Commentary

After the S&P 500's 20% decline in 1Q20 marked the index's worst quarter since the Financial Crisis, the 2Q20 20% rally marks the index's strongest quarter in 22 years. While the first quarter financial markets sold off sharply as what turned into the COVID-19 pandemic wreaked havoc on the global economy, the second quarter has seen financial markets stabilize and recover as policy makers globally are acting to address the economic risks posed by the pandemic. While health crisis likely remains far from over, markets have recovered as it appears the worst of the economic damage may be behind us. While March and April were characterized by a stunning decline in economic activity and a spike in unemployment, green shoots were apparent across much of the economic data reported in May and June, as lockdowns receded and the "re-opening" of the economy has driven an initial recovery across many sectors of the US. As a result, equity markets have rallied ahead of what could be a potential return to growth for the economy in the second half of the year, after a sharp and swift recession in the first half of 2020.
